

<b>CONTENTS</b>		<b>PAGE</b>
<b>CHAPTER 1</b>	<b>INTRODUCTION</b>	
	1.1 Maintenance management – a review	1
	1.2 References	3
<b>CHAPTER 2</b>	<b>LITERATURE REVIEW :</b>	
	<b>PART 1 GENERAL MANAGEMENT</b>	
	2.1 Introduction	4
	2.2 Organisation and the role of management	4
	2.3 Evolution of management theory	7
	2.4 Summary and comment	24
	2.5 References	26
<b>CHAPTER 3</b>	<b>LITERATURE REVIEW :</b>	
	<b>PART 2 MAINTENANCE MANAGEMENT</b>	
	3.1 Evolution of the need for maintenance management	28
	3.2 The period 1945-59	29
	3.3 The period 1960-69	30
	3.4 The period 1970 to date	36
	3.5 References	44
<b>CHAPTER 4</b>	<b>MAINTENANCE IN CONTEXT</b>	
	4.1 Introduction	46
	4.2 Systems approach to maintenance management	46
	4.3 Relationship between plant procurement and maintenance	47
	4.4 A methodology for understanding maintenance management	52
<b>CHAPTER 5</b>	<b>MAINTENANCE FUNCTION AND OBJECTIVE</b>	
	5.1 Maintenance function	55
	5.2 Maintenance objective	58
<b>CHAPTER 6</b>	<b>MAINTENANCE STRATEGY – PRELIMINARY CONSIDERATIONS</b>	
	6.1 Introduction	68
	6.2 The reason for maintenance	69
	6.3 Plant replacement policy and maintenance strategy	73
	6.4 Maintainability diagrams	75
	6.5 Maintenance procedures and their selection	76
<b>CHAPTER 7</b>	<b>MAINTENANCE STRATEGY – A SYSTEMATIC APPROACH</b>	
	7.1 The top down – bottom up approach	86
	7.2 Step 1: Understand the characteristics of plant operation	88
	7.3 Step 2: Establish a maintenance plan for each unit	91
	7.4 Step 3: Establish a maintenance schedule for the plant	93
	7.5 Step 4: Establish the initial policy for spare parts and reconditioning	97

<b>CONTENTS</b>	
<b>CHAPTER 8 MAINTENANCE ORGANISATION</b>	
8.1 Introduction	99
8.2 Maintenance workload	99
8.3 Resource structure	104
8.4 Maintenance work planning, work scheduling and work control	116
8.5 The maintenance administrative structure	122
<b>CHAPTER 9 MAINTENANCE CONTROL AND DOCUMENTATION</b>	
9.1 Maintenance control	130
9.2 Maintenance documentation systems	142
<b>CHAPTER 10 AUDITING INDUSTRIAL MAINTENANCE SYSTEMS</b>	
10.1 Introduction	154
10.2 The auditing procedure	154
10.3 An audit of an aluminium smelter	155
10.4 Concluding discussion	213
<b>CHAPTER 11 MAJOR ORGANISATIONAL CHANGE AND PEOPLE – A CASE STUDY</b>	
11.1 Introduction	218
11.2 Maintenance philosophy	219
11.3 Thoughts on local working arrangements	226
11.4 The way forward – Individual development	227
11.5 Conclusion	229
<b>APPENDICES</b>	
Appendix 1 Maintenance management terms in terotechnology	231
Appendix 2 Typical CEGB job description	234
Appendix 3 Maintenance management course programme	237
Appendix 4 Extract from maintenance audit aide-memoire	238
Appendix 5 Preliminary information for a maintenance audit	243
Appendix 6 Smelter maintenance audit programme	244
Appendix 7 Potrooms maintenance supervisor's objectives	248
Appendix 8 Extract from inspection schedule	250
Appendix 9 Audit condition monitoring survey	252
Appendix 10 Some thoughts on the maintenance of mixers	254
Appendix 11 Workshop location and functions	255
Appendix 12 Statement on inter-trade flexibility at the smelter	256
Appendix 13 The role of maintenance foremen at the smelter	257
Appendix 14 The maintenance organisation and procedure manual	258
Appendix 15 Levels/standards of knowledge	259
Appendix 16 Competence records (Example sheet)	261
Appendix 17 Competence records (Evaluation criteria)	262

# MAINTENANCE AND ITS MANAGEMENT
