<b>CHAPTER 1 THE OBJECTIVES OF PLANNED MAINTENANCE</b>	<b>1</b>
1.1 Maintenance in industry	1
1.2 Maintenance in public services	4
1.3 The duties of a maintenance department	5
1.4 Plant operation	7
1.5 Forms of maintenance	9
1.6 Planned maintenance	10
1.7 Benefits of planned maintenance	14
<b>CHAPTER 2 THE BASIC MECHANICS OF PLANNED MAINTENANCE SYSTEMS</b>	<b>16</b>
2.1 Initiating the scheme	16
2.2 The inventory	17
2.3 Identification of plant and equipment	21
2.4 The facility register	28
2.5 The maintenance schedule	41
2.6 The job specification	47
2.7 The maintenance programme	57
2.8 The control cycle	64
2.9 The job report	66
2.10 The history record	69
<b>CHAPTER 3 AUXILIARY COMPONENTS OF THE SYSTEM</b>	<b>77</b>
3.1 Designing out maintenance	77
3.2 Planned lubrication	78
3.3 Labour relations	83
3.4 Store keeping and stock control	86
3.5 Standardization	88

x	<i>Contents</i>	
3.6	Pilot schemes	92
3.7	Procedure for implementing a scheme	95
CHAPTER 4 SUPPORTING SERVICES		102
4.1	Work study	102
4.2	Maintenance aids	109
4.3	Charts and graphs	122
4.4	The human element	137
4.5	Economic maintenance	148
CHAPTER 5 COMMERCIAL SYSTEMS		151
5.1	Peg-board charts	151
5.2	Kalamazoo Strip Index	152
5.3	Strip Index applied to planned maintenance. Kalamazoo maintenance diary and work lists	154
5.4	Kalamazoo Factfinder applied to planned maintenance	157
5.5	The Mobil preventive maintenance system for vehicles and mobile plant	161
5.6	The Mobil basic system	166
5.7	The Mobil system A	170
5.8	The Mobil system B	176
CHAPTER 6 PROJECTS		182
6.1	Resource planning project	182
6.2	Fire appliance project	188
6.3	Plant availability project	198
6.4	Factories Acts project	210
Appendix 1	Glossary of general terms used in maintenance organization Extract from British Standard BS 3811 : 1964	211
Appendix 2	Extracts from the Factories Acts	215
Appendix 3	Questions from examination papers	220
	Bibliography	225
	Index	227
